Leonardo Silvatti Silva

Product Owner | Technical Product Manager | Tech Lead Location: Bauru, SP, Brazil (GMT-3) • Phone: +55 14 99678-3741 • Email: leonardo@silvatti.com.br LinkedIn: linkedin.com/in/lsilvatti • GitHub: github.com/lsilvatti • Portfolio: leonardo.silvatti.com.br

PROFESSIONAL SUMMARY

Product and Technology professional with 7 years of experience driving the lifecycle of high-traffic digital platforms. With a consolidated background as a Product Owner and Tech Lead, I specialize in aligning business objectives with engineering excellence.

Strong domain expertise in backlog management, requirements definition, agile squad leadership, and data-driven decision-making (BI Dashboards, A/B testing, conversion/retention metrics). My solid background as a Senior Full Stack Software Engineer provides a unique competitive edge in communicating with developers, translating complex technical requirements, evaluating architectural trade-offs, and removing delivery bottlenecks.

CORE COMPETENCIES

- **Product Management:** Product Discovery, Backlog Management, Product Roadmap, Requirements Definition, User Stories (BDD/Gherkin), MVPs, KPIs, A/B Testing.
- **Agile & Tools:** Scrum, Kanban, Agile Ceremonies (Planning, Daily, Retro, Review), Jira, Confluence, Trello.
- **Leadership & Business:** Stakeholder Management, Squad Leadership, 1:1s & Career Planning, Conflict Resolution, Data-Driven Vision, BI Dashboards.
- **Technical Background (Edge):** Software Architecture, REST & GraphQL APIs, Databases (SQL/Prisma), JavaScript/TypeScript Ecosystem, Cloud, CI/CD.
- **Languages:** Portuguese (Native), English (C2 Proficient - EF SET), Spanish (Intermediate).

PROFESSIONAL EXPERIENCE

eSapiens Technology | Remote / Brazil **Product Owner & Tech Lead** | January 2025 - February 2026 *(Hybrid role since mid-2024)*

- Led a cross-functional squad of 6 engineers using Jira and Confluence, managing the technical roadmap, backlog prioritization, and continuous alignment with C-level stakeholders.
- Facilitated all agile ceremonies (Plannings, Dailies, Retrospectives) and authored clear user stories (BDD/Gherkin), translating complex business needs into actionable engineering tasks.
- Built BI dashboards for real-time tracking of product KPIs, enabling data-driven strategic decisions and continuous A/B testing loops.
- Conducted people management via 1:1s, performance tracking, and career development planning.
- Introduced AI-assisted tools (Claude and Cursor), streamlining workflows and increasing the squad's delivery velocity by 15%.

Senior Software Engineer (Product Focus) | July 2021 - January 2025

- Conceptualized and led the end-to-end development of a core monetization feature (One-Time Sale), aligning business strategy and engineering execution, which directly resulted in a 20% increase in the product's monthly revenue.
- Planned and executed the architectural migration of a massive social network (26M+ users) and the Astrolink platform (15k+ MAU), focusing on user retention and achieving drastic improvements in SEO metrics and Core Web Vitals.

Trustly | Remote / Brazil **Senior Software Engineer (B2B2C Gateway)** | May 2026 - September 2026

- Worked directly with Product Owners, Risk teams, Financial Institutions, and stakeholders on initiatives focused on increasing user conversion and retention for the company's core payment gateway.
- Constantly evaluated trade-offs between security (e.g., anti-fraud flows) and user experience (UX), collaborating in the modernization of interfaces and architecture processing over 1.3 billion monthly operations.

Alternativa Systems | Bauru, Brazil **Software Engineer** | March 2021 - July 2021

- Translated complex business rules from a legacy desktop ERP into a cloud-based web product (MVP), actively participating in requirements gathering and API data structure design.
- Modernized internal tooling, simplifying daily operational workflows for the Product Management team and accelerating client response times.

Cocreare | Bauru, Brazil **Full Stack Developer** | January 2020 - March 2021

- Translated client demands and prototypes into high-impact applications, actively defining scopes for short contracts and ensuring on-time delivery.
- Highlight project: "Bombarco", an innovative virtual boat fair during the pandemic lockdown that achieved approximately 30,000 views and drove digital sales in a new sector.

SELECTED PROJECTS

Autoria Marginal (autoriamarginal.com.br) | July 2026

- Conceptualized and managed the end-to-end product lifecycle of a digital platform for independent artists, defining the MVP scope, go-to-market strategy, and execution roadmap.

Jornada da Psique (ajornadadapsique.com.br) | 2026

- Built a content platform focused on organic user acquisition. Implemented a headless CMS and technical SEO optimizations, establishing baseline metrics for user engagement and retention.

EDUCATION

Bachelor of Computer Science | São Paulo State University (UNESP) Bauru, SP, Brazil | Graduated: 2022
