# Leonardo Silvatti Silva

**Senior Frontend Engineer | Tech Lead | React, Next.js, TypeScript** Location: Bauru, SP, Brazil (GMT-3) • Phone: +55 14 99678-3741 • Email: leonardo@silvatti.com.br LinkedIn: linkedin.com/in/lsilvatti • GitHub: github.com/lsilvatti • Portfolio: leonardo.silvatti.com.br

## PROFESSIONAL SUMMARY

Senior Frontend Engineer and Tech Lead with nearly 7 years of experience building scalable, high-traffic web platforms. I specialize in the React ecosystem (React, Next.js, TypeScript, Zustand) with a strong track record of migrating complex legacy systems, improving Core Web Vitals, and designing maintainable UI architectures.

Focused on product impact and team efficiency, I have led frontend roadmaps, mentored engineers, and integrated AI-assisted workflows (Claude, Cursor) to speed up delivery while keeping strict code quality, testing, and accessibility standards. Currently expanding my expertise into backend development to strengthen full-stack architectural decisions.

## CORE COMPETENCIES

- **Frontend:** React, Next.js (App Router), TypeScript, JavaScript (ES6+), Zustand, React Query, Tailwind CSS, SASS, Component Architecture, Core Web Vitals, Technical SEO (JSON-LD), Accessibility (WCAG).
- **Testing & Quality:** Jest, Cypress, React Testing Library, Storybook.
- **Backend, Integrations & DevOps:** Node.js (learning), Server Actions, Supabase, REST APIs, GraphQL, GitHub Actions, Docker, Cloudflare, Vercel, CI/CD, Git.
- **Leadership & Product:** Technical Roadmaps, Agile/Scrum, Stakeholder Management, Mentoring, Code Reviews, AI-Assisted Workflows (Claude, Cursor, Copilot).
- **Languages:** Portuguese (Native), English (C2 Proficient - EF SET), Spanish (Intermediate).

## PROFESSIONAL EXPERIENCE

**Trustly** | Remote / Brazil **Frontend Developer** | May 2026 - September 2026

- Worked on the core payment widget using React, Next.js, and TypeScript, integrating complex API endpoints to support transaction flows processing over 1.3 billion monthly operations.
- Improved checkout flow performance and Core Web Vitals (LCP and CLS) by 15%, ensuring stability across 9,000+ merchant partners.
- Set up automated testing pipelines via GitHub Actions with Jest and Cypress, reaching 88% test coverage and catching UI regressions before hitting production in critical financial flows.

**eSapiens Technology** | Remote / Brazil **Frontend Tech Lead** | January 2025 - February 2026

- Managed the frontend technical roadmap, aligning architectural decisions between engineering, design, and product stakeholders.
- Streamlined agile workflows, removed technical blockers, and introduced AI-assisted development (Claude and Cursor) to cut down on repetitive code, increasing the team's delivery velocity by 15%.
- Mentored frontend developers through pair programming and strict code reviews, improving overall code consistency and reducing production bugs.

**Senior Frontend Developer** | July 2021 - January 2025

- Contributed to the migration of a massive social network (serving 26M+ users) from legacy PHP to a modern React stack, handling heavy media and high-traffic performance optimization.
- Participated actively in the migration of Astrolink (15k+ monthly active users) from legacy PHP to a modern React and Next.js stack, improving organic SEO and Core Web Vitals.
- Built a core monetization feature (One-Time Sale) from concept to launch, directly contributing to a 20% increase in monthly revenue.
- Created a reusable, accessible UI component library using TypeScript and SASS, speeding up feat

**Alternativa Systems** | Bauru, Brazil **Frontend Developer** | March 2021 - July 2021

- Built the cloud-based web version of a desktop ERP system using Next.js and SASS, migrating core operational modules and improving accessibility.
- Modernized internal tools with Vue.js, simplifying daily workflows for the product management team.
- Integrated RabbitMQ messaging workflows for asynchronous data processing across 100+ enterprise clients.

**Cocreare** | Bauru, Brazil **Junior Frontend Developer** | January 2020 - March 2021

- Developed and deployed responsive web and mobile applications using React, React Native, Vue, Angular, and Ionic, delivering 10+ client projects on schedule.
- Worked closely with designers to translate Figma and Adobe XD prototypes into pixel-perfect, production-ready frontend code.

## SELECTED PROJECTS

**Autoria Marginal (autoriamarginal.com.br)** | July 2026

- Full-stack web application built to distribute an illustrated copyright guide.
- Built with Next.js (App Router) and Server Actions for backend logic, handling database operations and analytics tracking with Supabase.

**Jornada da Psique (ajornadadapsique.com.br)** | 2026

- Modern content platform and blog built with Next.js (App Router) and Tailwind CSS.
- Integrated Sanity as a headless CMS and implemented technical SEO best practices, including dynamic JSON-LD structured data.

## EDUCATION

**Bachelor of Computer Science** | São Paulo State University (UNESP) Bauru, Brazil | 2016 - 2022
